XVIIth

11-14 April 2011, Málaga (Spain)

EUCARPIA Meeting - Section Vegetables
Working Group Tomato

On behalf of the EUCARPIA Vegetables Section, the Organizing Committee invites researchers and breeders interested in tomato genetics and breeding to participate in the XVIIth EUCARPIA Meeting of the Tomato Working Group which will be held from 11h to 14th April, 2011 in Fuengirola (Málaga), SPAIN, hosted by the *Instituto de Hortofruticultura Subtropical y Mediterránea "La Mayora"* (IHSM-UMA-CSIC).

The meeting will be an excellent opportunity to show and discuss your latest results on genetic resources, resistance to biotic and abiotic stresses, genetics of yield and fruit quality, -omics and biotechnological approaches, and any aspect relevant to tomato genetics and breeding.

The programme will include invited conferences, oral communications, and poster presentations. A technical excursion will be organized to visit a nearby greenhouse tomato production area.

Venue of the Meeting will be beachfront Hotel Beatriz Palace in Fuengirola, a town near Málaga on the Andalusian Mediterranean coast in Southern Spain.

Visit the meeting webpage for information on registration, accommodation, and abstract submission:
